

Cyber and Network Defense Certificate (Undergraduate)  
**Massachusetts Program Disclosure**

**COST OF PROGRAM:**

University Tuition & Fees	\$8,184
---------------------------	---------

University of Phoenix does not provide on-campus room and board or off-campus housing assistance at any of its locations. Estimated cost for Room/Board/Transportation for one academic year is \$7,760. The University Tuition and Charges shown on this Disclosure Form are based on the date you receive this form. The University reserves the right to adjust tuition and fees.

**Special Tuition Rates**

The University also provides special tuition rates for the following populations of students.

- **Military:** Students who are affiliated with the U.S. Armed Forces, as active-duty service members and family members of active duty and selected reserve will be charged the 'Military' tuition rate.
- **Alumni:** All alumni students who are applying to a new University of Phoenix bachelor program; who have previously completed a degree program with University of Phoenix; whose account with the University is in good standing; and who didn't earn the previous degree as an en-route credential; will be charged the 'Alumni' tuition rate. Students in this category will be given a guarantee of these tuition rates until their program completion deadline, unless they change programs or program versions.

These special tuition rates will result in the following **University Tuition and Fees** totals for the program.

- **Military: \$5,520**
- **Alumni: \$7,320**

**GRADUATION RATE:**

50% of students attending this program graduated during the last two calendar years for which data is available.

940 CMR 31.03 defines graduation rate as the number of students who received certificates, diplomas, or degrees in the program during the latest two calendar years, divided by the number of students who enrolled in the program during the latest two calendar years. This required definition may result in a graduation rate greater than 100% when the number of students who enrolled in the program during the time period is lower than the number of students receiving certificates, diplomas, or degrees during the time period because the required definition does not consider the total enrollment of the program over the time period. Similarly, the required definition may result in other disproportionately high graduation rates in the event that the number of students who enroll during the time period is less than the total number of students in the program who are eligible to receive certificates, diplomas, or degrees during the time period because the required definition does not consider the total enrollment of the program over the time period. Alternatively, the required definition may result in disproportionately low graduation rates in the event that the number of students who enroll during the time period exceeds the total number of students in the program who are eligible to receive certificates, diplomas, or degrees during the time period because the required definition does not consider the total enrollment of the program over the time period. A Graduation Rate of "N/A" indicates that there were no students who received certificates, diplomas, or degrees in the program during the latest two calendar years and no students who enrolled in the program during the latest two calendar years.

**PLACEMENT RATES:**

Graduate Placement Rate: 0% of graduates during 2022-2023 obtained full-time, non-temporary jobs in their field of study.

Total Placement Rate: 0% of students that enrolled in the program during 2022-2023 obtained full-time, non-temporary jobs in their field of study.

Employment statistics substantiating these placement rates are available for inspection on request. The University collected this information via survey from students graduating during 2022 and 2023. The University notes that despite reasonable efforts taken to gather employment data from graduates, many graduates do not respond to the survey. The overall response rate of Massachusetts graduates across all University of Phoenix programs to the survey was 63%.

For purposes of computing the graduate placement rate, only graduates who affirmatively responded to the survey and indicated that they obtained full-time (at
